The Lord Mayor  
City of Hobart  
Town Hall  
50 Macquarie Street  
HOBART - TAS 7000

Dear Lord Mayor

### REQUEST FOR ALDERMANIC PROFESSIONAL DEVELOPMENT

In accordance with Council's policy titled *Aldermanic Development and Support*, specifically Section C 4 which deals with Aldermanic Professional Development, I hereby seek your consideration and approval of the following request to undertake Professional Development.

**Details are:**

<b>Details of Professional Development Activity:</b>	<b>Description:</b>
Description of PD activity:	Conference and Study Tour
Name of activity:	<ul style="list-style-type: none"><li>- Study tour in Portland USA with a focus on Transit Oriented Development (residential development around light rail). This will include meetings and inspections with Transit Oriented policy specialists and developers.</li><li>- While in Portland I will also meet City Council community engagement program staff</li><li>- Presenting a paper on pedestrian issues at the Walk21 (International Federation of Pedestrians) Conference, Calgary</li><li>- Attendance at the Union of British Columbian Municipalities meeting, Vancouver</li><li>- Meetings with Vancouver City Council regarding their Climate Change Strategy and Action Plan</li></ul>
Dates(s) of activity if known:	13 - 28 September 2017
Location of the activity:	Portland in the USA and Calgary and Vancouver in Canada

<p>Cost of activity: (Cost should be all inclusive of registration, travel, accommodation, etc)</p>	<p>\$7,500 (approximate)</p> <ul style="list-style-type: none"> <li>- Airfare \$3500</li> <li>- Registrations \$500</li> <li>- Accommodation \$2000</li> <li>- Meals and incidentals \$900</li> <li>- Ground transport \$600</li> </ul>
<p>Please describe how participation in this activity will increase your capacity to perform your Aldermanic role, maintain and/or improve your skills or stay in touch with issues relevant to the Council.</p>	<p>This study tour is designed for me to understand best practises in key policy areas that I am working on for Hobart City Council.</p> <p><b>Portland</b></p> <p>According to <u>a report</u> from the City of Portland and Portland Streetcar, Inc., \$3.5 billion in real estate investments were made within 2 blocks of the light rail service in less than 7 years (from July 2001 to April 2008). Since the total capital cost of the streetcar line was only \$103 million, the benefits of the Portland Streetcar streetcar line <i>far</i> outweigh the costs. This is an example of Transit Oriented Development, for which Portland is globally recognised.</p> <p>As a member of the Hobart / Glenorchy Rail Corridor Working Group it will be invaluable to meet key decision-makers and developers in Portland that have been incentivizing and building transit oriented development in that city for several decades. Portland is widely acknowledged to be the leader in the field of transit oriented development globally.</p> <p><b>Calgary</b></p> <p>As a member of the Infrastructure Committee and on many resident traffic committees I have advocated for pedestrian improvements in Hobart for many years. It is an honor to be asked to speak at the International Federation of Pedestrians annual conference, Walk 21</p> <p>The 'Walk 21' conference is the only International Conference that specialises its focus on creating walking friendly cities. The conference brings together policy-makers, urban planners, healthcare professionals, and local leaders from around the world.</p> <p>This is the first time the conference has been held in north America, so it is expected to attract a large number of people from this region who are leading the development of healthy and vibrant cities in this part of the world.</p> <p>This international conference will also help me better understand best practise for pedestrian infrastructure particularly in north America which has many similarities to Australia in terms of cities that have developed around the car.</p> <p><b>Vancouver</b></p> <p>The opportunity to attend the annual gathering of all Councils in British Columbia as the guest of Vancouver Councillor, Adrienne Carr, is a great opportunity for me to see a number of issues being discussed.</p>

	<p>The trip to Vancouver is also a chance to better understand their globally-acclaimed climate change strategy and program. Vancouver has an ambitious goal to be the Greenest City in the world by 2020. While Vancouver is widely recognized as one of the most liveable cities in the world, their environmental footprint is currently three times larger than the Earth can sustain. The <u>Green City Plan</u> sets ambitious goals for sustainable transport, decreasing greenhouse gas emissions and adapting to climate change.</p> <p>This experience and knowledge gained will be important as Hobart also moves to up-date its own climate strategy and programs.</p>

*The report may be presented:*
