

# Application Referral Cultural Heritage - Response

<b>From:</b>	Nick Booth
<b>Recommendation:</b>	
<b>Date Completed:</b>	
<b>Address:</b>	157 ELIZABETH STREET, HOBART
<b>Proposal:</b>	Public Art Installation
<b>Application No:</b>	PLN-18-158
<b>Assessment Officer:</b>	Adam Smee,

---

## Referral Officer comments:

The proposal falls within the area identified as being of Archaeological Potential. However, it is acknowledged that the location of the two proposed supporting struts has been the subject of recent infill to some considerable depth as part of the UTAS development and that the proposal would not appear to extend below the depth of this infill. As such, it is considered unreasonable to seek a Statement of Archaeological Potential given the particular circumstances associated with the recent history of the site.
