Clicking 'Yes' means that, under section 59 of the Tasmanian Local Government Act, I request Hobart City Council to hold a public meeting about the issues in this petition, as the first step for residents to vote on these issues in an elector poll (under section 60C of the Act). The issues are: I call on Hobart City Council to 1) introduce absolute maximum building heights 2) protect Hobart's heritage buildings, and 3) protect Hobart's view-lines, all as per the City of Hobart's professional Planning Officers' recommendations to the Planning Committee on the 10th December 2018. These recommendations were not debated at this Planning Committee meeting, nor at the Council meeting the following week.:

<b>Optional Comments::</b>	I and many others want to keep our low-rise suburbs as low-rise suburbs and not an extension of the high-rise CBD. Our city is different because it's not all steel and glass towers like everywhere else, they're a dime a dozen. Why be just another wind-tunnelled rat-run that blocks the views of the Mountain and overshadows the docks and parks?

Optional Comments:: We need council to be totally transparent about this issue. Full disclosure of voting. There has been some very shoddy high rise developments that are eye sores. The gas tank & it's insulation poking out. Hadley's extension now RACT owned hotel with its ugly distorted cladding. Trafalgar place carpark. No 1 Davey st blocking the view of Constitution Dock. Evans St hotel which ruined the view of the roof line. The HCC renovated the Town Hall rear annexe. It should have been demolished it was an opportunity missed to remove that inappropriate addition. There was plenty of room in the Davey St centre to accommodate the displaced personnel. That instance for me highlights how misguided HCC planning can be.

Hobart City Council to hold a  
public meeting about the  
issues in this petition, as the  
first step for residents to  
vote on these issues in an  
elector poll (under section  
60C of the Act). The issues  
are: I call on Hobart City  
Council to 1) introduce  
absolute maximum building  
heights 2) protect Hobart's  
heritage buildings, and 3)  
protect Hobart's view-lines,  
all as per the City of Hobart's  
professional Planning  
Officers' recommendations  
to the Planning Committee  
on the 10th December 2018.  
These recommendations  
were not debated at this  
Planning Committee  
meeting, nor at the Council  
meeting the following week.:

Optional Comments:: Currently there is no limit to the discretion of HCC with respect to heights. The HCC Planning Officers report recommended absolute maximum height limits for all zones within the CBD and Sullivans Cove. While some debate whether 60m in the city centre is too high, it is far better than the current scheme which permits the council to use discretion to approve any height they wish. Other provisions relating to the protection of Heritage Buildings and Sight Lines will also help to maintain Hobart as a unique and wonderful place. Provided that the other provisions (Overshadowing, Residential Amenity etc.) of the planning schemes (HIPS & Sullivans Cove) are also observed the limits recommended by the HCC Planning Officers should provide sufficient comfort that the nature of our City will be preserved. I support this petition and call for an Electors Poll.

<b>Optional Comments::</b>	Hobart is a small Georgian town with a scattering of historic buildings. Its ambience should not be threatened by high rise buildings and the associated increase in road traffic. High rise will also damage Hobart's tourist industry. Many cities throughout the world have preserved their heritage, so should it be for Hobart.

Optional Comments::	1) It is in all of our long-term interests to protect the character of Hobart as a (mostly) aesthetically pleasing city. This character comes from Hobart's waterfront, river, valley and mountain settings and the way that they interconnect. It is vital that sightlines and skylines are maintained and improved. 2) One should always ask 'who benefits' from building developments. Too often the big profits go to out of town big business at Hobart's cost. While there may be short term 'jobs' from building projects, there are many ways a city in Tasmania can create employment opportunities where the long term benefit also returns to Tasmania.

Clicking 'Yes' means that, under section 59 of the Tasmanian Local Government Act, I request Hobart City Council to hold a public meeting about the issues in this petition, as the first step for residents to vote on these issues in an elector poll (under section 60C of the Act). The issues are: I call on Hobart City Council to 1) introduce absolute maximum building heights 2) protect Hobart's heritage buildings, and 3) protect Hobart's view-lines, all as per the City of Hobart's professional Planning Officers' recommendations to the Planning Committee on the 10th December 2018. These recommendations were not debated at this Planning Committee meeting, nor at the Council meeting the following week.:

Clicking 'Yes' means that, under section 59 of the Tasmanian Local Government Act, I request Hobart City Council to hold a public meeting about the issues in this petition, as the first step for residents to vote on these issues in an elector poll (under section 60C of the Act). The issues are: I call on Hobart City Council to 1) introduce absolute maximum building heights 2) protect Hobart's heritage buildings, and 3) protect Hobart's view-lines, all as per the City of Hobart's professional Planning Officers' recommendations to the Planning Committee on the 10th December 2018. These recommendations were not debated at this Planning Committee meeting, nor at the Council meeting the following week.:

Clicking 'Yes' means that, Yes  
under section 59 of the Tasmanian Local Government Act, I request Hobart City Council to hold a public meeting about the issues in this petition, as the first step for residents to vote on these issues in an elector poll (under section 60C of the Act). The issues are: I call on Hobart City Council to 1) introduce absolute maximum building heights 2) protect Hobart's heritage buildings, and 3) protect Hobart's view-lines, all as per the City of Hobart's professional Planning Officers' recommendations to the Planning Committee on the 10th December 2018. These recommendations were not debated at this Planning Committee meeting, nor at the Council meeting the following week.:

Optional Comments:: While the Officers recommendations are based on codifying Woolley's qualitative study, I believe that there is strong feeling in the cimmunity that heights should not be increased above the exusting Planning Scheme heights which are discretionary. Rather those heights should become firm limits only variable in exceptional cases for the public good eg a helipad for the hospital. I request a public meeting and a real debate. That needs to include impacts on traffic and environment as well as quality of life in the city. Hobart is a liveable city, to walk and ride, for children and elderly people, to meet in the streets and greet one another but high buildings would detract from rather than enhance its liveability. It's about much more than views.

Clicking 'Yes' means that, Yes

under section 59 of the  
Tasmanian Local  
Government Act, I request  
Hobart City Council to hold a  
public meeting about the  
issues in this petition, as the  
first step for residents to  
vote on these issues in an  
elector poll (under section  
60C of the Act). The issues  
are: I call on Hobart City  
Council to 1) introduce  
absolute maximum building  
heights 2) protect Hobart's  
heritage buildings, and 3)  
protect Hobart's view-lines,  
all as per the City of Hobart's  
professional Planning  
Officers' recommendations  
to the Planning Committee  
on the 10th December 2018.  
These recommendations  
were not debated at this  
Planning Committee  
meeting, nor at the Council  
meeting the following week.:

Optional Comments:: Dear Aldermen. For goodness sake protect our heritage and keep hobart low rise and liveable. Remember its cold here in winter and short days .we dont need more high buildings shadowing our streets. Encourage lowrise development 3-5 stories byt save our sight lines.. i remember how we used to see eastern shore from wharf area until 1 Davey st stole it with just one more story.. spoiling the line of the beautiful buildings including ixl . We'll be watching you and voting for the counselors who listen to the voters. Thankyou

Clicking 'Yes' means that, under section 59 of the Tasmanian Local Government Act, I request Hobart City Council to hold a public meeting about the issues in this petition, as the first step for residents to vote on these issues in an elector poll (under section 60C of the Act). The issues are: I call on Hobart City Council to 1) introduce absolute maximum building heights 2) protect Hobart's heritage buildings, and 3) protect Hobart's view-lines, all as per the City of Hobart's professional Planning Officers' recommendations to the Planning Committee on the 10th December 2018. These recommendations were not debated at this Planning Committee meeting, nor at the Council meeting the following week.:

<b>Optional Comments::</b>	<p>I strongly believe it is important for us to have height limits and to maintain what makes Hobart unique. Developers should respect our city, not have the unrestricted capacity to take advantage of the fact that we don't currently have many regulations that show that we respect what we have. We should also be advocating for architectural interest and creativity and have buildings that are worthy of our capital and ones that might be attractions in themselves. The argument that ugly dominating multi storey buildings add interest is a furphy, they are just being made to maximise profit for developers, they are unlikely to result in employment for Tasmanians and take the views and vistas away that are important to Hobartians.</p>

<b>Optional Comments::</b>	<p>I moved to Hobart from Sydney in 2001. I was attracted to its low-rise built environment where the oldest buildings could be seen to their greatest advantage. I loved feeling the history around me and living in a city that had its own unique character. I have travelled extensively and feel that high-rise buildings are not suitable for a city like ours. People come to Hobart because it is qualitatively different from most other cities. We must fight to keep the unique aesthetic of our beautiful city so that it never becomes just another conglomeration of high steel and glass towers.</p>

<b>Optional Comments::</b>	I attended a previous meeting with the architect where the presentation was a lovely sales pitch, an enjoyable experience but the actual wording of drafted documents was so loose that it was alarming, considering it could be a legal document that developers could interpret. I will be happy to attend a further meeting.
<b>Clicking 'Yes' means that, under section 59 of the Tasmanian Local Government Act, I request Hobart City Council to hold a public meeting about the issues in this petition, as the first step for residents to vote on these issues in an elector poll (under section 60C of the Act). The issues are: I call on Hobart City Council to 1) introduce absolute maximum building heights 2) protect Hobart's heritage buildings, and 3) protect Hobart's view-lines, all as per the City of Hobart's professional Planning Officers' recommendations to the Planning Committee on the 10th December 2018. These recommendations were not debated at this Planning Committee meeting, nor at the Council meeting the following week.:</b>	Yes

Optional Comments:: Having attended a public information meeting where Leigh Woolley outlined the rationale for the recommendations in his report, I was pleased that the Planning Officers took them on board. I am disappointed that the Officers' recommendations were ignored. I believe that Hobart's unique and internationally attractive built heritage must be preserved and protected, and that our viewlines and outlooks over and through the inner city area be kept open. I urge that Council seriously examines and takes on board the recommendations that have already been made. The establishment of a set of maximum building height limits is a matter of urgency, as we have developers hungry to throw up inappropriate towers for their own profit and, at the moment, seeming to feel confident that Hobart has no power to regulate them.

<b>Optional Comments::</b>	Hobart has a unique character and charm that make it a desirable tourism destination. It shouldn't be the case, but sadly regulations are the only way to ensure that greedy corporates and backroom deals don't cause irreversible changes to the quaintness and desirability of the city.

<b>Optional Comments::</b>	<p>Hobart's city centre is unique .... the blend of heritage stone buildings and more contemporary buildings near the waterfront is a combination not seen in many other places. However already the recent creep of higher story buildings is casting a chilly shadow over the city... and adds to the chill in winter. High rise buildings block natural sunlight and reduces the amenity and attractiveness of the built environment. Retaining lower maximum heights will ultimately retain the human connection to the city. High rise buildings will reduce the human attractiveness to the city centre and so people will be less inclined to linger and particularly during the winter months with the chilly morning winds that come down the Derwent and the cold southerlies.... the streets will become even colder wind tunnels and people will not linger any longer than necessary in the city.... and then it will transition into a characterless utilitarian city centre like most other large cities in the world. I already choose to restrict my time in the city centre to the bare essentials because the changes over the past few years because the hobart cbd is loading its human heart....</p>
<b>Clicking 'Yes' means that, under section 59 of the Tasmanian Local Government Act, I request Hobart City Council to hold a public meeting about the issues in this petition, as the first step for residents to vote on these issues in an elector poll (under section 60C of the Act). The issues are: I call on Hobart City Council to 1) introduce absolute maximum building heights 2) protect Hobart's heritage buildings, and 3) protect Hobart's view-lines, all as per the City of Hobart's professional Planning Officers' recommendations to the Planning Committee on the 10th December 2018. These recommendations were not debated at this Planning Committee meeting, nor at the Council meeting the following week.:</b>	Yes

Clicking 'Yes' means that, under section 59 of the Tasmanian Local Government Act, I request Hobart City Council to hold a public meeting about the issues in this petition, as the first step for residents to vote on these issues in an elector poll (under section 60C of the Act). The issues are: I call on Hobart City Council to 1) introduce absolute maximum building heights 2) protect Hobart's heritage buildings, and 3) protect Hobart's view-lines, all as per the City of Hobart's professional Planning Officers' recommendations to the Planning Committee on the 10th December 2018. These recommendations were not debated at this Planning Committee meeting, nor at the Council meeting the following week.:

Clicking 'Yes' means that, Yes  
under section 59 of the  
Tasmanian Local  
Government Act, I request  
Hobart City Council to hold a  
public meeting about the  
issues in this petition, as the  
first step for residents to  
vote on these issues in an  
elector poll (under section  
60C of the Act). The issues  
are: I call on Hobart City  
Council to 1) introduce  
absolute maximum building  
heights 2) protect Hobart's  
heritage buildings, and 3)  
protect Hobart's view-lines,  
all as per the City of Hobart's  
professional Planning  
Officers' recommendations  
to the Planning Committee  
on the 10th December 2018.  
These recommendations  
were not debated at this  
Planning Committee  
meeting, nor at the Council  
meeting the following week.:

<b>Optional Comments::</b>	Having anything but an absolute set building height limit simply creates loopholes for developers to work through. We have absolute speed limits for a reason too; the message needs to be send plain and simple - Hobart is not a high-rise city. Thank you
