COMMITTEE RESOLUTION:

Motion:

- “(i) That a report be prepared to consider the merits or otherwise of utilising Hobart's underground rivulet as a pedestrian and / or bicycle commuter route;
and;
- (ii) In its assessment of the concept, the Council considers the potential of working with institutions such as schools, colleges and universities to develop research projects for students to address the challenges and develop technical, innovation, social and economic models and solutions.”

Rationale:

“The demand for Hobart’s roads and footpaths is increasing as more people live, work, learn and socialise in the inner city. Pedestrians, cyclists and vehicles are increasingly competing for finite space. Given the constraints on the ground level to physically increase the area available for travelling, the consideration of novel approaches to creating alternative commuter connections that are convenient and inviting is warranted. This motion suggests the idea of studying the potential for utilisation of the convenient routes offered by Hobart’s underground rivulet.

The underground route of the Hobart Rivulet could offer enormous opportunities for connecting key locations within the city. An example of four possible entrance locations, marked as A, B, C and D, are shown in Figure 1 below.

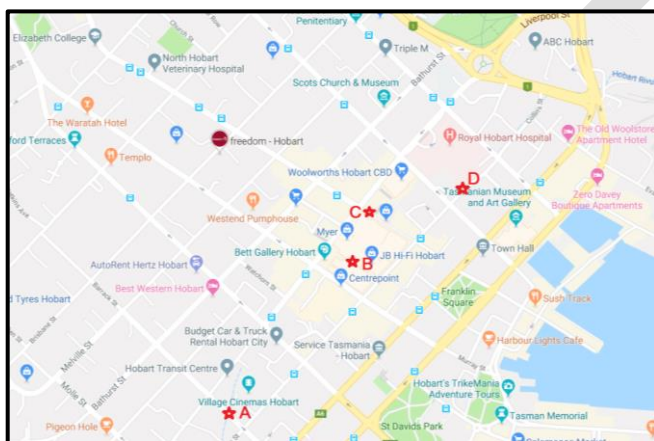

Figure 1: Possible Rivulet Access Locations

There are other locations where the rivulet may be accessed, but these four examples provide an illustration of the range of potential locations of entrances, and how popular city destinations may be connected.

Location A

The rivulet is exposed for segments between the start of the Linear Park track, Molle St and across Barrack St, becoming enclosed near Liverpool St in the block between Barrack and Harrington St. As shown in Figure 2, the exposed rivulet runs adjacent to a variety of buildings in the city.

Figure 2: The open rivulet between Liverpool, Harrington, Collins and Barrack Streets

Location B

The rivulet runs underneath the Cat and Fiddle Arcade with parts of the lower floor of the building built into the rivulet void. Figure 3 shows a view from inside the underground rivulet of an area apparently used for storage at the rear of a shop within the arcade.

Figure 3: The Rivulet below the Cat and Fiddle Arcade

Location C

A now enclosed bridge (Wellington Bridge) is visible from the rivulet under the Elizabeth St Mall as shown in Figure 5.

Figure 5: The Rivulet below Elizabeth St Mall

Location D

A segment of the rivulet is exposed alongside the Royal Hobart Hospital, running adjacent to Collins St between Argyle and Campbell Streets.

Assessment

Evaluating and designing the route will be informed by a range of disciplines. While the concept poses technical (eg ventilation, travelling surface, flood monitoring and escape routes) and financial challenges, it will also require a range of focussed assessments such as legal (land ownership, access and zoning) and economic (creating new business opportunities and revenue opportunities for Council, but potentially reducing existing street pedestrian traffic). There is scope for new design and innovation to enhance user amenity such as heating, lighting, air quality and user experience. Gathering this information presents a range of opportunities for students and institutions to develop connections with Council and learn about the operation of the city, while developing practical skills.

The Hobart Rivulet has not always been treated carefully by the city and its residents. This project presents the opportunity for the people of Hobart to understand the critical ongoing role of the rivulet, and appreciate its existence as a serene connection through the busiest parts of our city.”

The General Manager reports:

“In line with the Council’s policy in relation to Notices of Motion, I advise that the matter is considered to be within the jurisdiction of the Hobart City Council as it relates to the Hobart Rivulet.”

Alderman Behrakis vacated the Chair and Alderman Denison assumed the Chair.

10. QUESTIONS WITHOUT NOTICE

Section 29 of the *Local Government (Meeting Procedures) Regulations 2015*.
File Ref: 13-1-10

10.1 Lord Mayor Reynolds - Pedestrian Death at Traffic Lights
File Ref: 13-1-10

Question: Due to the recent pedestrian death on the pedestrian crossing at the intersection of Collins and Argyle Streets, and the recent accident involving another pedestrian and a vehicle, could the Director please advise:

- (a) If the Council will be advised of the outcomes from the Coroner's report into the death of the pedestrian;
- (b) Will the Coroner make recommendations for the Council to follow and potentially develop a process to reduce the risk to pedestrians from being injured or killed on pedestrian crossings; and
- (c) Is there anything that can be implemented now that could reduce the risk of this type of accident from re-occurring.

Answer: The Director City Amenity took the question on notice for the Director City Planning.

10.2 Lord Mayor Reynolds - Pedestrian Fencing
File Ref: 13-1-10

Question: Is the pedestrian fencing on Bathurst Street (in the block between Murray and Elizabeth) still a recommended and widely used traffic treatment for this kind of city street?

Has a risk assessment been done recently about if it puts people parking their cars next to the barrier at risk by having to walk along the road next to traffic in order to access the footpath?

Could there be more contemporary and safer treatment to encourage people to cross Bathurst Street at the lights?

Answer: The Director City Amenity took the question on notice for the Director City Planning.

10.3 Alderman Briscoe - McKellar Street, South Hobart - Shared Use of Walkway
File Ref: 13-1-10

Question: Could the Director please advise if there are plans currently being considered by the City in relation to sealing, installing markings and declaring the pathway as 'shared use' for bicycles on the pathway diverting from the Rivulet into McKellar Street, South Hobart as it is prohibited for bike riders to continue on the Rivulet pathway beyond this point?

Answer: The Director City Amenity took the question on notice.

10.4 Alderman Briscoe - Remembrance Bridge
File Ref: 13-1-10

Question: Could the Director please advise if the City will be investigating and/or has any plans to modify and widen the Remembrance Bridge Queens Domain access point to accommodate both bicycles and pedestrians simultaneously?

Answer: The Director City Amenity took the question on notice for the Director City Planning.

11. CLOSED PORTION OF THE MEETING

BRISCOE

That the Committee resolve by majority that the meeting be closed to the public pursuant to regulation 15(1) of the *Local Government (Meeting Procedures) Regulations 2015* because the items included on the closed agenda contain the following matters:

- Information that was provided to the Council on the basis that it be kept confidential; and
- Contract for the supply of services.

The following items were discussed: -

Item No. 1	Minutes of the last meeting of the Closed Portion of the Committee Meeting
Item No. 2	Consideration of supplementary items to the agenda
Item No. 3	Indications of pecuniary and conflicts of interest
Item No. 4	Committee Action Status Report
