The proposal does not meet the acceptable solution or the performance criterion with respect to clause Part D 22.4.1 A1 and P1.1(a) of the *Hobart Interim Planning Scheme 2015* because the development does not make a positive contribution to the streetscape and townscape, having regard to the height, bulk and design of existing and proposed buildings.

MOTIONS OF WHICH NOTICE HAS BEEN GIVEN

**IN ACCORDANCE WITH REGULATION 16(5) OF THE LOCAL GOVERNMENT
(MEETING PROCEDURES) REGULATIONS 2015**

That the following Notice of Motion adopted by the Finance and Governance Committee at its meeting of 20 October 2020, be considered by the Council.

11. Investigation of Asset Holdings
File Ref: F20/103360; 13-1-9

Ref: Open [FGC 7.1](#), 20/10/2020

Motion:

- “That: 1. The General Manager provide a report with a proposal, including an estimation of costs to engage an external consultant to undertake and complete an analysis of better strategic use of or possible asset sales and/or the potential to allow council assets of all types to provide support as collateral security to reduce debt levels without having to sell the assets for consideration by the Council when developing a post COVID-19 recovery and resilience plan.

2. The following commercial attributes are to be addressed as part of the analysis:
 - a. Current and potential use to value;
 - b. Commercial value to commercial return;
 - c. Rent return to capital return.”

Rationale:

During the COVID-19 pandemic, the Council experienced significant challenges to the financial sustainability of the Council. The forecast loss from all areas of operations in the financial year 2020 is estimated at a 12 million dollar loss.

It is important that as part of the ongoing strategies to recover from the pandemic that all realistic options are considered by the Council. One of these ought to include:

1. The consideration of disposing of the City's underutilised assets.
2. Consideration of the market mechanisms which provide possible flexible funding options for council's balance sheet through utilising council's asset portfolio to generate funding without selling or relinquishing control of the assets.

It is appreciated that this can be an issue approached with some trepidation by elected members which requires balancing the retention of required assets and possible unknown future circumstances against the benefits that disposal might provide in the 'here and now'.

As an alternative to the disposal of assets, there may be options around restructuring the ownership model or using the assets portfolio to provide a better return for ratepayers.

For some years now governments around Australia including government owned corporations have entered into debt funding models which all require appropriate probity and transparency.

The assets portfolio encompasses all council owned infrastructure, including real property holdings.

The General Manager advises:

“A recovery and resilience plan is being developed as part of the City's response to the COVID-19 pandemic, which will include consideration of the strategies for the future of the City's assets.”
