6.1.	Petition - Slow Traffic through West Hobart, Mount Stuart & Lenah Valley - Mr Ryan Posselt	
A.	Petition - Slow Traffic through West Hobart, Mount Stuart & Lenah Valley.....	2

# **Community Petition:**

**Slow traffic through West  
Hobart, Mount Stuart & Lenah  
Valley**

---

Date: 29 August 2022

To the Lord Mayor, Elected Members and the Chief Executive Officer of the Hobart City Council, the petition of the undersigned is submitted for your attention.

**State the subject matter:**

Traffic through West Hobart, Mount Stuart and Lenah Valley is reaching unmanageable and dangerous levels. This route is used by residents from North and South of Hobart LGA as an alternative route to The Brooker highway. It presents unnecessary risk to the residents of the affected suburbs and significantly effects the amenity of neighborhoods.

**State the action sought by the petitioners:**

This petition calls for Hobart City Council to address the traffic issue in West Hobart, Mount Stuart and Lenah valley through installation of traffic calming devices and speed limit reduction. This petition calls for consideration of traffic calming devices on the following streets:

- Molle Street, West Hobart
- Hill Street, West Hobart
- Mellifont Street, West Hobart
- Mount Stuart Road, Mount Stuart
- Byard Street, Mount Stuart
- Montagu Street, Mount Stuart
- Doyle Avenue, Lenah Valley

It further calls for consideration of 40km/h speed limits and raised pedestrian crossings near:

- Each end of Lansdowne Cr
- The Train Park
- Between Hill Street Grocer and AA Lord Retirement village.
- Mount Stuart Memorial Hall.

**Total number of signatories to the petition:**

576

*Please Note: To be a valid petition: The full printed name, address and signature of the person lodging the petition must be provided.*

I RYAN POSSELT hereby declare that this petition has been submitted in its original form and has not been edited or amended since inception.

Name: RYAN POSSELT

Elected Member Use Only:

As presented to Council by Alderman/Councillor .....

Signed: .....

**Background**

The End the Rat Run campaign was formed after a number of parents of primary school age children contacted me concerned about the volumes and speed of traffic that passes through West Hobart, Mount Stuart and Lenah Valley. I had definitely noticed the traffic, the increase in volume at peak and the general trend of busier streets, but I hadn't identified some of the issues until I was approached.

I don't personally use the Rat Run, even though I work at Claremont Ambulance Station and live on Lansdowne Crescent. So I did my homework and drove the length of the rat run from Rosetta to Davey St and back at different times of day. As is the case everywhere, there isn't much of an issue between 10:00am and 2:30pm, and after 6:30pm but the traffic predictably increases between 7:30 and 10:00am and 2:30 - 6:30pm. I also went up to Mount Stuart at 5:20pm on a week day and counted cars, which produced a number nearing 1000 cars passing the Mount Stuart Memorial Hall per hour. Which is backed up by empirical data collected by Misdon Traffic consultants in 2019 (see table below).

**Table 5 Hourly Traffic Volumes**

Survey	AWDT	AM Peak	PM Peak	School Afternoon Peak
Pre-Trial	9,813 vpd	1,114 vph 8:00am - 9:00am	1,052 vph 5:00am - 6:00pm	946 vph 3:00pm - 4:00pm
Post-Trial 1	10,849 vpd	1,160 vph 8:00am - 9:00am	1,156 vph 5:00pm - 6:00pm	1,001 vph 3:00pm - 4:00pm
Post-Trial 2	9,668 vpd	1,010 vph 8:00am - 9:00am	1,061 vph 4:00pm - 5:00pm	1,035 vph 3:00pm - 4:00pm
Post-Trial 3	9,393 vpd	1,118 vph 8:00am - 9:00am	1,004 vph 5:00pm - 6:00pm	941 vph 3:00pm - 4:00pm

So, thinking upon the community concerns and the data I had collected, I decided this campaign was a worthy cause. You see, the Rat Run simply doesn't serve a single resident of West Hobart or Mount Stuart. It almost exclusively serves people who live south of Hobart and work in the northern suburbs or vice versa. Yes, some people who reside in South Hobart or Sandy Bay may use this route to go north, but generally the route serves people from outside of the Hobart City LGA.

I understand that people believe this route is faster or more efficient, I also understand that people use this route to make their mobile business more efficient. However, the penalty the many residents of Mount Stuart and West Hobart pay exceeds the benefit of a few in my view. Here are some points to consider about the appropriateness of this route for large volumes of traffic working from South to North.

#### **Molle Street:**

The volume of traffic has necessitated installation of a set of traffic lights between the Rivulet and Collins Street to enable cycle commuters from South Hobart to safely cross on their way in and out of the city. This area is also frequently crossed by parents with children as a result of the Good Start early learning centre that is at the end of the

rivulet. It is also in proximity to Pigeon Hole Cafe and Goulburn Street primary school, so pedestrian traffic is high, particularly around school time.

The pinch between Goulburn Street and Melville Street has an average gradient of about 15% with some sections exceeding 20%. This leads to significant noise for neighbours as cars and light trucks are at 100% throttle to get up the hill. It also leads to wheel spinning cars sliding their way up the street in slippery conditions. In fact, it used to be two way but its so steep that it was closed as accidents frequently occurred at the intersection with Goulburn Street as cars simply couldn't stop in wet or frosty conditions.

#### **Hill Street:**

The first danger point on Hill Street occurs at the roundabout with Patrick Street. With a local post office and grocer on one corner, Paesanos and Verde on another and Island Tyres on another, as well as, Guilford Young College nearby, it is fair to say this is a high hazard intersection. I have a friend who lives at this intersection and he says that crossing with his young family in busy times is impossible unless someone waves them through. This intersection is punctuated by cars pulling into and out of the 15 minute parking zones, a bus stop and teenagers crossing to and from their parked cars and their school.

Moving down the hill, a new 40km/h zone starts just before the Train Park. It is a welcome reduction, but because of the topography of the street, the volume of parked cars and the width of the street, visibility of children exiting the park gate or on the footpath is minimal. In addition, drivers are focusing on Warwick st, looking down the hill, away from the park to the right in anticipation of being able to continue through the roundabout without fully slowing or stopping. And because the roundabout is so small, it is possible to pass through the round about at 40km/h as the minimum speed. Meanwhile cars and people come and go from the Florist and mechanic that are opposite the park.

The next intersection is Pine Street. This intersection contains a pharmacy and Smolt Kitchen. Again pedestrian traffic is high. Around school time, this intersection is crossed by many children and families headed to and from Lansdowne Primary School. The new Wombat Crossing is a welcome addition, but unfortunately it was installed too close to the roundabout. The result is that again, drivers attention is not where the hazards are likely to be found. Only drivers exiting Pine street are looking toward the crossing. This leads to many close calls with pedestrians where drivers see them too late or not at all.

Moving to the Arthur Street intersection. Hill Street Grocer is known to cause a little bit of traffic mayhem with cars trying to enter an already full car park. This is made considerably more dangerous by being bordered by a sizeable retirement village. Frequently, elderly residents are trying to cross Hill Street outside the AA Lord village to get to The Grocer with no assistance from a pedestrian crossing.

**Mellifont Street**

Mellifont street begins with the Friends Park and a busy bus stop, frequented by teens on their way to and from Tarooma High school, most of whom have to cross Mellifont Street from their homes. There is also a medical practice, pathologist and Adam's Store. So again this is an area that has a high pedestrian density of vulnerable people.

It continues up the hill which has a gradient of between 20-25%. Again subjecting residents to excessive noise when travelling up the hill. I have witnessed rear wheel drive cars getting stuck on wet days if they have to stop half way up and end up causing chaos needing to reverse and do a U-turn. The gradient also leads to a tendency of excessive speed when travelling down the hill.

**Mount Stuart Road**

The first danger point is the intersection with Mellifont street, where many cars are not anticipating cars coming up Mount Stuart Road and want to maintain their momentum up the steep hill. Next comes a known as a pinch point, where cars must give way to oncoming traffic as the street narrows. All in proximity to Mount Stuart Primary School.

**Byard St, Gordon Av, Montagu St, Doyle Av**

While the hazards being to lessen at this part of the route, it does still have Mount Stuart Memorial hall. This hall is a multipurpose hall that is frequented by children and families of all ages. Residents in this section of the route have told me that on occasion they have waited more than 5 minutes simply to get out of their driveway. It is a route that is punctuated by give way and stop signs as well as more roundabouts. Again residents have told me that if you aren't in the Rat Run traffic and you are coming from a side street or unexpected direction, you are subject to regular close calls with people who treat this route like a highway.

**Conclusion**

I think the above list shows just how inappropriate this route is for large volumes of traffic. Those who use it regularly state they use it as a shortcut to avoid the Brooker Highway. I think this is telling, they literally choose this route as their alternate "highway". Reducing traffic and slowing/calming the traffic on this route will hopefully lead to more families allowing their kids to walk unsupervised to and from school, the elderly feeling safe when trying to do their shopping, increase a sense of community as streets will be a safer place for children and families to play, and prevent future life changing or life ending incidents where cars meet kids. It will truly change the feel of both suburbs for the better.

I believe that installing traffic calming devices, such as speed bumps or chicanes, lowering the speed limit in key places and increasing the number of raised pedestrian crossings (Wombat Crossings) in crucial high pedestrian areas will deter enough people from using this route. Yes, it may now take them 5 minutes longer to get from The Southern

Outlet to Rosetta, but I believe that the gains to the 8,000 residents of Mount Stuart and West Hobart are so substantial that it is worth it.

Some of this petitions crossings have already been recommended but not implemented by Hobart City Council. Read council's 2019 work, external traffic consultant's (Midson Traffic) report and recommendations.

## Signatory Comments

Name	Date	Comment
Shaz Harrison-Williams	6/6/22	"People do drive too fast, there are no speed cameras. Goons drive down Arthur St and kill wildlife."
Peter McKenzie	6/6/22	"I think traffic calming measures are a great idea in high density residential areas."
Rachel Needham	6/6/22	"The traffic congestion, traffic flow and volume of traffic in Hobart is unsafe and we need to see some sustainable planning and better transport options."
Linda O'Brien	6/6/22	"I'd also support consideration of 40Km speed limits and raised pedestrian crossings on Waverley Ave, Montagu Street and Gordon Avenue as this is part of the short cut to the CBD used by non residential traffic."
Mathew Wheatley	6/6/22	"The roads are too narrow for some of the speeds"
Megan Hale	6/6/22	"I am concerned about the speed of cars along my road - Waverley Avenue - especially at peak hour. And I am saddened by native animals which are killed in our suburb."
Mark Johnston	6/6/22	"HCC and the State Government should be acting further to slow and discourage traffic on this route. Motorists should be encouraged to catch public transport or use active transport"
veronica mcshane	6/6/22	"Slow the traffic across the whole city, and just reduce it. The city must be a place for people before vehicles."
Chantal De Brauwere	6/6/22	"to reduce the risk of potentially fatal accidents to people and animals. Corby Ave can be hazardous too"
Veronica Darby	7/6/22	"I have had too many close calls walking on the Wombat Pedestrian crossing on Hill St Roundabout outside the PHARMACY, cars speed through. DANGEROUS and an accident waiting to happen"
Sue Headley	7/6/22	"I've asked the HCC twice to install traffic calming measures in William St West Hobart, a very narrow street used by a lot of very fast-moving traffic from the new subdivision in Forest Road to get to Hill Street and North Hobart. The council have been very dismissive in their replies."
Eve MacFie	9/6/22	"Traffic in the area is a nightmare but we need also need to include 40k/hr speed limit in Mt Stuart Rd in the split level part between Una St and Mellifont St. Cars speed up here constantly as part of the general rat run into town and schools."

		"Hill Street is a shitfight all day due to traffic and cars speeding along over well over the speed limits."
Andrew Lechte	9/6/22	
Kitty Kruup	9/6/22	"I live in West Hobart and finding traffic getting worse and at times even dangerous."
		"These are quiet residential areas and need to be kept safe. Driving slowly saves lives and it is not an inconvenience."
Mary Thomas	10/6/22	
Angela Martin	12/6/22	"Mt Stuart resident"
		"Local resident that sees how dangerous the intersections around this 'run' are to cross."
Sandra Wiggins	13/6/22	
		"Thanks for starting this Ryan! This area is extensively used by pedestrians and I'm sure would see even more use if the traffic was not so heavy. Given the number of schools, parks and other amenity reducing the speed limit would be a great improvement."
Kirk Wilson	14/6/22	
		"As a local resident for several decades I have observed that road traffic has increased significantly. While the health benefits of children walking to school is well recognised I now have concerns for school children as well as older community members who are needing to cross the busy streets in the area."
Elizabeth Cuthbertson'	28/6/22	
		"I cross Melifont Street with 3 children after school 3 days a week and it is so scary the number of fast cars driving past- making this a challenging walk home!"
Alice Graham	28/6/22	
		"with narrow roads, curling bends , school kids and tender wild things, there a few too many fast cars and trucks in the hood. cars need to go much slower"
svetlana bunic	29/6/22	
michael swanton	30/6/22	"The automobile is a dinosaur."
		"Pedestrian safety is important on this busy commuter route"
Andrea Mounter	9/7/22	
Anne Marie McGowan	10/7/22	"I live in Hobart. The Liberal Party here are trashing the joint."
		"I used to live in a popular rat-running street. Crossing it was Russian Roulette."
Glenys Dean	11/7/22	

		"I'm a resident of West Hobart, and I can see the dangers associated with traffic in the area. The pedestrian crossing on Hill Street near the pharmacy is particularly dangerous and a number of people have nearly been hit by cars there. It is tempting to blame the drivers, however, it is difficult to navigate the roundabout with busy traffic and be aware of people entering the pedestrian crossing. At certain times of the year the setting sun makes it difficult to see if there is someone on or entering the crossing. I don't believe this reflects on the driver but on the poor placement of the crossing. Children use the crossing and I hope that the first significant incident doesn't involve a child."
Nicole Dilworth	13/7/22	"Also we need to block off Park street in new town ... it is a residential street but people use it to avoid the Brooker highway I can't get out of my drive or I have people blasting me with their horns. Then I try
Rosanne Fenton	16/7/22	'back into my drive"
Roger Munro	16/7/22	"It's chaos in Mt Stuart" "Speed in and around the Mount Stuart /west Hobart area is constantly above 50k an hour it is sometimes around 70k particularly where it's a long straight stretch as in where I live on Mount Stuart road, it is treated as a highway"
Paula Haley	16/7/22	"Motorists using Kalang/Girrabong/Lenah Valley Rd, and then Mount Stuart Rd to avoid Brooker Highway create havoc in peak hours. They add to the danger for school students (and pedestrians in general), and frustrate residents trying to get out of their driveways."
Mary Dane	17/7/22	"I use this route regularly at an appropriate speed for the narrow, congested streets. I'm sick of being tailgated by aggressive drivers when doing so."
Erin Buttermore	17/7/22	"I can't let my kids walk to school along Doyle ave because it's too dangerous to cross without an adult. The existing speed humps are not effective at slowing traffic. Even in my street there are regular wild animals killed."
Alison Featherstone	18/7/22	"I have seen people speeding in these streets where families live and it is only a matter of time before someone is hurt. Toorak Avenue should also be included on this list as it is very much a "rat run" street!"
Erin Bell	18/7/22	"Also need to consider CAVELL St! We've had police speed cameras find one person doing 118km on our block!"
Corey Peterson	18/7/22	

Isobel Richardson	19/7/22	"I don't feel safe driving along my residential street as it is used as a quick way for people to avoid town traffic and they never give way where it is very necessary and dangerous."
		"I live here, and walk kids to school daily. Above all, I'd like to see a pedestrian (zebra) crossing on Gordon between Waverly and Montagu where the steps climbing the spur cross it. It is the worst road walking the kids to school and we call it The Big Bad road. Visibility is poor (cars coming up Waverly and around a corner) and traffic intense at morning rush hour (the school walk)."
Bernd Wechner	20/7/22	"I agree that this is a very unsafe area with people speeding"
Gay Jeffries	21/7/22	"I've seen a lot of close calls in my particular neighbourhood, Lenah Valley. For over three years a few residents have been making very valid points Re the dangers of the Doyle-Giblin roundabout. It should have Stop Signs, as many 'drivers' either don't know their left from their right or don't know that patience is required for the Give Way rule to work. Or both. I've nearly been T-boned myself on three occasions. I now have a dashcam ... and lots of footage. Well done, Ryan!"
Warren Bounds	22/7/22	"I live at the intersection Of Hill and Arthur Street West Hobart the traffic is horrendous"
Brian Crawford	29/7/22	"The speed humps in the narrowest section of Doyle Ave (between Pottery Rd and Giblin St) are completely ineffective. Traffic volume has increased markedly and people are speeding through this narrow section. It's really dangerous."
Sue Moir	1/8/22	"Not only are these areas unsafe for children but also after dark when native animals are killed. I would like to see a monitored kiss and drop / pick up area at Mount Stuart Primary school to avoid parents "panic driving" and also parking over driveways. Signed."
Linda Higginson	2/8/22	

		"We live near the train park. As well as families crossing the roads to access the park, many visitors find it difficult to park their vehicles and get their kids safely onto the footpath. We've seen a parent, under pressure, park near the corner and then open their driver's door and get out just as another vehicle has come too fast around the corner. We've also seen tired or excited children escape their carer's attention for a moment while the family is getting back into the car after their visit to the train park. Even a tradie coming to our place has observed incidents like this and told us about it with concern. It's a typical scenario for an accident 'waiting to happen'. Reducing the speed limit on Hill Street - by physical means and enforcement - could reduce the risk of an adult being injured or a child being killed."
Peter Jerrim	7/8/22	"I live on Hill Street, West Hobart near the play park and I see everyday how people speed up and down the hill. I've also seen a car flipped over in the street and I can only assume it due to speeding. In addition to the safety aspect, I find that the relentless speeds are also creating a lot of noise which is not ideal for a residential neighbourhood. I have spend over \$40k to get my house sound proofed. The issue could be have avoided if the speed limits was reduced."
Adriaan Stander	9/8/22	"the traffic where i live is terrible and dangerous"
Yvonne Rees	12/8/22	"I live on Byard st and since moving here I have seen multiple car crashes. I also watch school kids walk to and from the mount Stuart hall every day and worry for their safety sometimes crossing the road to get there."
Emily Wilson	13/8/22	"Through traffic on Byard Street and Gordon Avenue too frequently fails to look / give way / stop for local traffic."
Chris Wilde	14/8/22	"The road is currently dangerous for residents."
Christine Wilson	14/8/22	"We live in Summerhill Road and are concerned about the intersection with Melifont St, poor sight lines and traffic speed in Melifont"
Jonathon Rees	15/8/22	"Please add Bathurst Street to the list. The speeds are extremely dangerous and completely unpoliced"
Kirk Mower	15/8/22	

		<p>"This is a great initiative! When we moved to Cavell Street in 2015, we immediately noticed a lot of speeding vehicles, up &amp; down the street. And we could hear them screaming up &amp; down the interconnected Goulburn Street, past the primary school. We have a lot of families in the area. You regularly see kids playing ball on the street &amp; cycling around. I had grave concerns for their safety. In Aug 2017, I arranged for Hobart City Council (HCC) to install temporary traffic counters (that also measure speed) on Cavell Street. They installed them for a period of 8 days. Incredibly, despite there being a 50 km/h limit, the data recorded a maximum speed limit on the westbound lane (towards Goulburn Street) of 83 km/h and another on the eastbound lane of 118 km/h. Unbelievably, they told me that speed humps or traffic calming measures were not warranted. They did say they notified Tas Police of the results and asked them to patrol the area. I notified the Goulburn Street Primary School Parents &amp; Friends Association (in the"</p>
Cameron McShane	16/8/22	<p>"I have had my car side swiped twice in Mount Stuart by what would be considered 'speeding motorists' luckily my car is insured so it's only costing a mere \$1k to fix someone else's mistake. This is the Third time my car has been hit; thank god that wasn't a child. This area should be a "residents" only area (obviously allowing access for those who work or have school drop-offs in the area). Prevention measure stopping goons from using roundabouts as a skid pan would also be greatly appreciated. Cameras on every major intersection, road and roundabout in the area wouldn't go amiss either. Thanks for bringing this issue to light Ryan. It has been an issue for such a long time. Ps, zebra/pedestrian crossings and speed bumps at each Ingress/egress point of the roundabout at the top of Mount Stuart; corners of My Stuart Road, Gillon Crescent, Weerona Avenue, Venn Court and Dale Crescent would be extremely beneficial"</p>
Sam Mitchell	17/8/22	<p>"I'm signing because I used to live in a house that is just out of view. We moved because the traffic was terrible. Fast, constant and not safe for kids to be out of our yard."</p>
Emma Little	21/8/22	<p>"Getting in and out of my car in Hill St feels like dicing with death. Hobart needs a decent city bypass not a rat run through suburbia."</p>
Sarah Ogilvie	22/8/22	

# Petition

## Local Government Act 1993

### PART 6 - Petitions, polls and public meetings

#### 57 Petitions

1. (1) A person may lodge a petition with a council by presenting it to a councillor or the general manager.
2. (2) A person lodging a petition is to ensure that the petition contains –
  1. (a) a clear and concise statement identifying the subject matter and the action requested; and
  2. (b) in the case of a paper petition, a heading on each page indicating the subject matter; and
  3. (c) in the case of a paper petition, a brief statement on each page of the subject matter and the action requested; and
  4. (d) a statement specifying the number of signatories; and
  5. (e) at the end of the petition –
    1. (i) in the case of a paper petition, the full name, address and signature of the person lodging the petition; and
    2. (ii) in the case of an electronic petition, the full name and address of the person lodging the petition and a statement by that person certifying that the statement of the subject matter and the action requested, as set out at the beginning of the petition, has not been changed.
3. (3) In this section – electronic petition means a petition where the petition is created and circulated electronically and the signatories have added their details by electronic means;

paper petition means a petition where the petition is created on paper which is then circulated and to which the signatories have added their details directly onto the paper;

petition means a paper petition or electronic petition;

signatory means –

1. (a) in the case of a paper petition, a person who has added his or her details to the paper petition and signed the petition; and
2. (b) in the case of an electronic petition, a person who has added his or her details to the electronic petition.

#### 58 Tabling petition

1. (1) A councillor who has been presented with a petition is to – (a) ...
  - (b) Forward it to the general manager within 7 days after receiving it.
2. (2) A general manager who has been presented with a petition or receives a petition under subsection (1)(b) is to table the petition at the next ordinary meeting of the council.

## Petition

3. (3) A petition is not to be tabled if –
  - (a) it does not comply with section 57 ; or (b) it is defamatory; or
  - (c) any action it proposes is unlawful.
4. (4) The general manager is to advise the lodger of a petition that is not tabled the reason for not tabling it within 21 days after lodgment.

### 59 Petitions seeking public meetings

1. (1) A petition under section 57 may request that a council hold a public meeting regarding the subject matter of the petition.
2. (2) A council must hold a public meeting if the petition complies with section 57 and it is signed by whichever is the lesser of the following:
  1. (a) 5% of the electors in the municipal area;
  2. (b) 1 000 of those electors.
3. (3) A petition that requests a public meeting is not to be made in respect of any matter relating to rates and charges in Part 9 if those rates or charges have been made for the current financial year.

### 60 Action on petition

1. (1) The general manager, by notice in writing to the person who lodged the petition, is to –
  1. (a) advise whether the petition complies with section 59 , if it seeks a public meeting; and
  2. (b) give reasonable notice of when the council is to consider the petition.
2. (2) Within 42 days after the tabling of the petition –
  1. (a) the general manager is to advise the council at a council meeting whether the petition complies with section 59 , if applicable; and
  2. (b) the council, at that meeting, is to determine any action to be taken in  
  
respect of the petition.

T:\Council Support\Petition\Petition Form and LGA.docx

## Petition

3. (3) If the petition complies with section 59 , or the council otherwise resolves to hold a public meeting regarding the subject matter of the petition, the council, within 30 days after the meeting referred to in subsection (2) , is to hold a public meeting to discuss the subject matter of the petition.
4. (4) The council is to record in the minutes of the meeting referred to in subsection (2) –
  - (a) the subject matter of the petition; and (b) the number of signatories to the petition.

**60A Public meetings and submissions**

1. (1) Before holding a public meeting under section 59 or section 60(3) , a council, in a notice publicly displayed, must –
  1. (a) state the date on which, and the time and place at which, the public meeting is to be held; and
  2. (b) state the details of the subject matter; and
  3. (c) invite written submissions in relation to the subject matter to be lodged with the general manager.
2. (2) A copy of the notice under subsection (1) is to be –
  1. (a) published on at least 2 occasions in a daily newspaper circulating in the municipal area; and
  2. (b) sent to the person who lodged the petition.
3. (3) A submission must be lodged within 21 days after the first publication of the notice.
4. (4) Any submission received is to be summarised by the general manager in a document, copies of which are to be made available to those attending the public meeting.
5. (5) The minutes of the next ordinary meeting of the council following the public meeting are to record –
  1. (a) a summary of any submission received under this section; and
  2. (b) any decision made at a public meeting held under this section.
