Petition

Local Government Act 1993

PART 6 - Petitions, polls and public meetings

57 Petitions

- (1) A person may lodge a petition with a council by presenting it to a councillor or the general manager.
- (2) A person lodging a petition is to ensure that the petition contains –
 - (a) a clear and concise statement identifying the subject matter and the action requested; and
 - (b) in the case of a paper petition, a heading on each page indicating the subject matter; and
 - (c) in the case of a paper petition, a brief statement on each page of the subject matter and the action requested; and
 - (d) a statement specifying the number of signatories; and
 - (e) at the end of the petition –
 - (i) in the case of a paper petition, the full name, address and signature of the person lodging the petition; and
 - (ii) in the case of an electronic petition, the full name and address of the person lodging the petition and a statement by that person certifying that the statement of the subject matter and the action requested, as set out at the beginning of the petition, has not been changed.
- (3) In this section –

electronic petition means a petition where the petition is created and circulated electronically and the signatories have added their details by electronic means;

paper petition means a petition where the petition is created on paper which is then circulated and to which the signatories have added their details directly onto the paper;

petition means a paper petition or electronic petition;

signatory means –

 - (a) in the case of a paper petition, a person who has added his or her details to the paper petition and signed the petition; and
 - (b) in the case of an electronic petition, a person who has added his or her details to the electronic petition.

58 Tabling petition

- (1) A councillor who has been presented with a petition is to –
 - (a) ...
 - (b) forward it to the general manager within 7 days after receiving it.
- (2) A general manager who has been presented with a petition or receives a petition under subsection (1)(b) is to table the petition at the next ordinary meeting of the council.

Petition

- (3) A petition is not to be tabled if –
 - (a) it does not comply with section 57 ; or
 - (b) it is defamatory; or
 - (c) any action it proposes is unlawful.
- (4) The general manager is to advise the lodger of a petition that is not tabled the reason for not tabling it within 21 days after lodgment.

59 Petitions seeking public meetings

- (1) A petition under section 57 may request that a council hold a public meeting regarding the subject matter of the petition.
- (2) A council must hold a public meeting if the petition complies with section 57 and it is signed by whichever is the lesser of the following:
 - (a) 5% of the electors in the municipal area;
 - (b) 1 000 of those electors.
- (3) A petition that requests a public meeting is not to be made in respect of any matter relating to rates and charges in Part 9 if those rates or charges have been made for the current financial year.

60 Action on petition

- (1) The general manager, by notice in writing to the person who lodged the petition, is to –
 - (a) advise whether the petition complies with section 59 , if it seeks a public meeting; and
 - (b) give reasonable notice of when the council is to consider the petition.
- (2) Within 42 days after the tabling of the petition –
 - (a) the general manager is to advise the council at a council meeting whether the petition complies with section 59 , if applicable; and
 - (b) the council, at that meeting, is to determine any action to be taken in respect of the petition.

Petition

- (3) If the petition complies with section 59 , or the council otherwise resolves to hold a public meeting regarding the subject matter of the petition, the council, within 30 days after the meeting referred to in subsection (2) , is to hold a public meeting to discuss the subject matter of the petition.
- (4) The council is to record in the minutes of the meeting referred to in subsection (2) –
 - (a) the subject matter of the petition; and
 - (b) the number of signatories to the petition.

60A Public meetings and submissions

- (1) Before holding a public meeting under section 59 or section 60(3) , a council, in a notice publicly displayed, must –
 - (a) state the date on which, and the time and place at which, the public meeting is to be held; and
 - (b) state the details of the subject matter; and
 - (c) invite written submissions in relation to the subject matter to be lodged with the general manager.
- (2) A copy of the notice under subsection (1) is to be –
 - (a) published on at least 2 occasions in a daily newspaper circulating in the municipal area; and
 - (b) sent to the person who lodged the petition.
- (3) A submission must be lodged within 21 days after the first publication of the notice.
- (4) Any submission received is to be summarised by the general manager in a document, copies of which are to be made available to those attending the public meeting.
- (5) The minutes of the next ordinary meeting of the council following the public meeting are to record –
 - (a) a summary of any submission received under this section; and
 - (b) any decision made at a public meeting held under this section.

Improve pedestrian infrastructure in Mount Nelson

This petition calls on the City of Hobart (Hobart City Council) to improve pedestrian infrastructure in Mount Nelson. Specifically it calls for the City of Hobart to:

1. Install a pedestrian crossing across Nelson Road in the proximity of Mount Nelson Store
2. Commence a planned infrastructure program with the aim of building a continuous footpath, separated from the road, along Olinda Grove and Nelson Road between Hobart College and the Mount Nelson Signal Station.

2. Commence a planned infrastructure program with the aim of building a continuous footpath, separated from the road, along Olinda Grove and Nelson Road between Hobart College and the Mount Nelson Signal Station.

[illegible]

Alderman Marti Zucco

Thank you Marti for accepting this petition.

I have attached a printout of the information I obtained from Wikipedia on Metasequoia trees.

I was advised by Council some time back that it was this tree that was planted in Franklin Street.

I have also attached a photo of the tree outside No. 9 Franklin Street. It shows that the trunk has lifted and cracked the footpath, has pushed the gutter away from the footpath and its roots are growing over the curb. This is beginning to happen to most of the trees.

Not only are the trees damaging they also block the storm water drains when dropping their leaves. These leaves also make their way into houses and a constant problem in the autumn months. Photos of the mess are also attached and were taken towards the end of autumn and a day after I had swept the length of the gutter and footpath.

All residents (at home at the time) on the lower side of Franklin Street but with one exception have signed the petition. It does not cause a problem for those residents on the top side.

Thank you and good luck for the current election.

Regards,

Paul Ackerley

Petition

Date: 11/10/22

To the Lord Mayor, Elected Members and the Chief Executive Officer of the Hobart City Council, the petition of the undersigned is submitted for your attention.

State the subject matter:

DAMAGING AND MESSY TREES
IN FRANKLIN ST. WEST HOBART

State the action sought by the petitioners:

REMOVE TREES AND
REPLACE WITH MORE SUITABLE TREES

Total number of signatories to the petition

7

Petition

Local Government Act 1993

PART 6 - Petitions, polls and public meetings

57 Petitions

- (1) A person may lodge a petition with a council by presenting it to a councillor or the general manager.
- (2) A person lodging a petition is to ensure that the petition contains –
 - (a) a clear and concise statement identifying the subject matter and the action requested; and
 - (b) in the case of a paper petition, a heading on each page indicating the subject matter; and
 - (c) in the case of a paper petition, a brief statement on each page of the subject matter and the action requested; and
 - (d) a statement specifying the number of signatories; and
 - (e) at the end of the petition –
 - (i) in the case of a paper petition, the full name, address and signature of the person lodging the petition; and
 - (ii) in the case of an electronic petition, the full name and address of the person lodging the petition and a statement by that person certifying that the statement of the subject matter and the action requested, as set out at the beginning of the petition, has not been changed.
- (3) In this section –

electronic petition means a petition where the petition is created and circulated electronically and the signatories have added their details by electronic means;

paper petition means a petition where the petition is created on paper which is then circulated and to which the signatories have added their details directly onto the paper;

petition means a paper petition or electronic petition;

signatory means –

 - (a) in the case of a paper petition, a person who has added his or her details to the paper petition and signed the petition; and
 - (b) in the case of an electronic petition, a person who has added his or her details to the electronic petition.

58 Tabling petition

- (1) A councillor who has been presented with a petition is to –
 - (a) ...
 - (b) forward it to the general manager within 7 days after receiving it.
- (2) A general manager who has been presented with a petition or receives a petition under subsection (1)(b) is to table the petition at the next ordinary meeting of the council.

Petition

- (3) A petition is not to be tabled if –
 - (a) it does not comply with section 57 ; or
 - (b) it is defamatory; or
 - (c) any action it proposes is unlawful.
- (4) The general manager is to advise the lodger of a petition that is not tabled the reason for not tabling it within 21 days after lodgment.

59 Petitions seeking public meetings

- (1) A petition under section 57 may request that a council hold a public meeting regarding the subject matter of the petition.
- (2) A council must hold a public meeting if the petition complies with section 57 and it is signed by whichever is the lesser of the following:
 - (a) 5% of the electors in the municipal area;
 - (b) 1 000 of those electors.
- (3) A petition that requests a public meeting is not to be made in respect of any matter relating to rates and charges in Part 9 if those rates or charges have been made for the current financial year.

60 Action on petition

- (1) The general manager, by notice in writing to the person who lodged the petition, is to –
 - (a) advise whether the petition complies with section 59 , if it seeks a public meeting; and
 - (b) give reasonable notice of when the council is to consider the petition.
- (2) Within 42 days after the tabling of the petition –
 - (a) the general manager is to advise the council at a council meeting whether the petition complies with section 59 , if applicable; and
 - (b) the council, at that meeting, is to determine any action to be taken in respect of the petition.

Petition

- (3) If the petition complies with section 59 , or the council otherwise resolves to hold a public meeting regarding the subject matter of the petition, the council, within 30 days after the meeting referred to in subsection (2) , is to hold a public meeting to discuss the subject matter of the petition.
- (4) The council is to record in the minutes of the meeting referred to in subsection (2) –
 - (a) the subject matter of the petition; and
 - (b) the number of signatories to the petition.

60A Public meetings and submissions

- (1) Before holding a public meeting under section 59 or section 60(3) , a council, in a notice publicly displayed, must –
 - (a) state the date on which, and the time and place at which, the public meeting is to be held; and
 - (b) state the details of the subject matter; and
 - (c) invite written submissions in relation to the subject matter to be lodged with the general manager.
- (2) A copy of the notice under subsection (1) is to be –
 - (a) published on at least 2 occasions in a daily newspaper circulating in the municipal area; and
 - (b) sent to the person who lodged the petition.
- (3) A submission must be lodged within 21 days after the first publication of the notice.
- (4) Any submission received is to be summarised by the general manager in a document, copies of which are to be made available to those attending the public meeting.
- (5) The minutes of the next ordinary meeting of the council following the public meeting are to record –
 - (a) a summary of any submission received under this section; and
 - (b) any decision made at a public meeting held under this section.

* NOTE THE UNDERLINED INFO.

Metasequoia

Metasequoia, or **dawn redwoods**, is a genus of fast-growing deciduous trees, one of three species of conifers known as redwoods. The living species *Metasequoia glyptostroboides* is native to Lichuan county in Hubei province, China. Although the shortest of the redwoods, it grows to at least 165 feet (50 meters) in height. Local villagers refer to the original tree from which most others derive as *Shui shān* (水杉), or "water fir", which is part of a local shrine. Since its rediscovery in 1944, the dawn redwood has become a popular ornamental, with examples found in various parks in a variety of countries.

Together with *Sequoia sempervirens* (coast redwood) and *Sequoiadendron giganteum* (giant sequoia) of California, *Metasequoia* is classified in the Cupressaceae subfamily Sequoioideae. *M. glyptostroboides* is the only living species in its genus, but three fossil species are known. Sequoioideae and several other genera have been transferred from the former family Taxodiaceae to Cupressaceae based on DNA analysis.^[1]

Sequoiadendron giganteum is the sole living species in the genus *Sequoiadendron*, and one of three species of coniferous trees known as redwoods, classified in the family Cupressaceae in the subfamily Sequoioideae, together

Metasequoia

Temporal range:

Clade:	Gymnosperms
Division:	Pinophyta
Class:	Pinopsida
Order:	Pinales
Family:	Cupressaceae
Subfamily:	Sequoioideae
Genus:	<i>Metasequoia</i>
	Miki

Species

- †*Metasequoia foxii*
- Metasequoia glyptostroboides*
- †*Metasequoia milleri*
- †*Metasequoia occidentalis*
- †*Metasequoia disticha*

Paleontology

Metasequoia redwood fossils are known from many areas in the Northern Hemisphere; more than 20 fossil species have been named (some were even identified as the genus *Sequoia*), but are considered as just three species, *M. foxii*, *M. milleri*, and *M. occidentalis*.^[2] Fossils are known from the Cenomanian onwards. During the Paleocene and Eocene, extensive forests of *Metasequoia* occurred as far north as Strathcona Fiord on Ellesmere Island and sites on Axel Heiberg Island (northern Canada) at around 80° N latitude.^[3] *Metasequoia* was likely deciduous by this time. Given that the high latitudes in this period were warm and tropical, it is hypothesized that the deciduous trait evolved in response to the unusual light availability patterns, not to major seasonal variations in temperature.^[4] During three months in the summer, the sun would shine continuously, while three months of the winter would be complete darkness. It is also hypothesized that the change from evergreen to deciduous trait occurred before colonizing the high latitudes and was the reason *Metasequoia* was dominant in the north.^[5]

Large petrified trunks and stumps of the extinct *Metasequoia occidentalis* (sometimes identified as *Sequoia occidentalis*) also make up the major portion of Tertiary fossil plant material in the badlands of western North Dakota.

The trees are well known from late Cretaceous to Miocene strata, but no fossils are known after that. Before its discovery, the taxon was believed to have become extinct during the Miocene; when it was discovered extant, it was heralded as a "living fossil".

Appearance

Dawn redwood foliage - note opposite arrangement

The bark and foliage are similar to *Sequoia*, but *Metasequoia* is deciduous like *Taxodium distichum* (bald cypress), and, similarly, older specimens form wide buttresses on the lower trunk. It is a fast-growing tree to 130–150 feet (40–45 m) tall and 6 feet (2 m) in trunk diameter in cultivation so far (with the potential to grow even higher).

The leaves are opposite, 0.4–1.25 inches (1–3 cm) long, and bright fresh green, turning foxy red-brown in fall. The pollen cones are 0.25 inch (6 mm) long, produced on long spikes in early spring; they are only produced on trees growing in regions with hot summers. The cones are globose to ovoid, 0.6–1.0 inches (1.5–2.5 cm) in diameter with 16–28 scales, arranged in opposite pairs in four rows, each pair at right angles to the adjacent pair; they mature in about 8–9 months after pollination.

Metasequoia has experienced morphological stasis for the past 65 million years: the modern *Metasequoia glyptostroboides* appears identical to its late Cretaceous ancestors.^[6]

History

The fossil of this genus was discovered by Shigeru Miki in 1939. In 1941, Miki published the description of the fossil plant which he gave the name "Metasequoia". In the winter of the same year, a Chinese botanist Toh Gan (干铎) discovered an unusual big tree in Modaoxi (磨刀溪; presently, Moudao (谋道), in Lichuan County, Hubei^[7]). The locals called this tree shui-sha (水杉). Because it was winter, the tree already lost all its leaves, so no specimens were collected by Mr. Gan. In 1942, another botanist, Mr. Zhan Wang (王战) visited Modaoxi and collected living specimens. Mr. Wang believed this tree belonged to a known species *Glyptostrobus pensilis* (水松) and filed the specimens away. In 1945, Mr.

Wang showed the specimens to botanist Wan-Chun Cheng (郑万钧). Mr. Cheng determined that the tree did not belong to *Glyptostrobus pensilis*, but was a new species. Mr. Cheng then sent a specimen to prominent botanist H.H.Hu, the director of Fan Memorial Institute of Biology. Hu, despite the chaos of war between China and Japan, was still keeping track of international botanic literature. Hu recognized the living specimen was of the same genus of Miki's fossil genus "*Metasequoia*". After more study, Hu and Cheng published the new species *Metasequoia glyptostroboides* (Hu et Cheng) in May 1948 in the Bulletin of Fan Memorial Institute of Biology. The discovery of a "living fossil" instantly attracted attention from botanists around the world. It was widely regarded as "the greatest discovery of botany in 20th century". In 1948, the Arnold Arboretum of Harvard University, through the help of Hu and Cheng, funded an expedition by Chinese collectors to collect seeds. Soon after, seeds were distributed to various universities and arboreta worldwide for growth trials.

Presently, a number of natural *Metasequoia* populations exist in the hills and wetlands of Hubei's Lichuan County. Most of them are small, with fewer than 30 trees each; however, the largest of them, in Xiaohu Valley, is estimated to consist of around 5,400 trees.^[2] A few trees are also said to exist in neighboring Hunan Province.^[2]

Metasequoia in gardens, parks and streets

Dawn redwoods are fast-growing trees. They sometimes grow too large in smaller gardens under favorable conditions, but they can be a good choice for a wide range of larger gardens and parks. Although they live in wet sites in their native habitat they will also tolerate dry soils.^[8] Unlike most conifers, their deciduous habit means they do not cast too much shade in winter. They are grown as street trees in London and elsewhere.

Strawberry Fields is a landscaped section in New York City's Central Park dedicated to Beatle John Lennon. At the northern end of the lawns are three dawn redwood trees. The trees drop their needles each fall and regrow them each spring, a symbol of eternal renewal. The trees are expected to reach a height of 36 meters (118 ft), making them visible from great distances.
