7.1	Huon Road and Grayling Avenue Intersection	
	A. Petition - Huon Road / Grayling Avenue Intersection - March 2024	2

F24/17592

Huon Rd and Grayling Ave Intersection

I have been a resident of Clutha Place for 14 years. Access to Clutha Place is off Grayling Ave. Entering the Grayling Ave intersection with Huon Rd, travelling west, has always presented a difficulty for lower powered cars and two wheel drives particularly when it's wet, as it becomes difficult to maintain traction with cars often skidding and failing to grip the road.

I have also noted that during poor weather drivers sometimes turn into Grayling Ave from the right side of the island if there are no cars coming, rather than, correctly, the left hand side. Slowing down to enter the sharp left hand turn, with the steep gradient and very worn surface, creates a difficult and often dangerous situation.

I have contacted the council and made them aware of this situation and I now seek your support with this petition for residents of Grayling Ave and Clutha Place.

If you support this petition, please sign below and return to my letterbox which is on the Clutha Place service rd on left after no. 16

I support this petition and urge the Hobart council to look into this matter as soon as possible.

Many cars also travel up the Huon Rd in a westerled direction, turn left into Grayling a sharp right to go back down the Huon Rd.

Very dangerous when you are accelerating to go up Grayling. Very poor placement! of the island.
