MOVED : EVANS

It was unanimously agreed that the minutes of the previous meeting held on 23 September 2025, be confirmed as an accurate record.

4. DECLARATION OF INTEREST

Members of the Committee are requested to indicate whether they may have any conflicts of interest in respect to any matter appearing on the agenda.

No interest was declared.

Item 7.1 was then taken.

5. BUSINESS ARISING FROM PREVIOUS MEETING

Refer to **ATTACHMENT A** – City Heritage Committee – Action Status Report.

6. INFORMATION SHARING

6.1 Members invited to share ideas, thoughts, feedback (light bulb moments) since last session.

Members raised and discussed the following matters:

Orphan School statues:

Members discussed the orphan statues and the proposal to recreate them. It was noted that the project is currently on hold until the Department of Health confirms the future location for the statues. Members also noted the upcoming Friends of the Orphan School “Fox and Feast” event on 22 February 2026, which will include a site tour.

Macquarie Point Stadium - road access and residential development:

Members discussed future road accessibility and associated infrastructure for the Macquarie Point Stadium and its planned residential development. It was noted that consultation information is currently available via the Department of State Growth, and that the State Government requires planning approval for the residential component. The City of Hobart is currently preparing a report for Elected Members for consideration at the Council meeting on 23 February 2026.

St David’s Park monuments:

Members discussed the poor condition of several monuments within St David’s Park, noting their historical significance and that conservation efforts have slowed deterioration but not stopped it. It was advised that the City is currently awaiting an arboricultural report.

The Committee also queried the heritage protection status of cemeteries and recalled that Council previously provided plaques for headstones. Reference was also made to the Cenotaph and the Boer War Memorial, noting that not all historic burial sites retain headstones and that heritage status varies across sites.

Item 9 was then taken.

7. PORTFOLIO BUSINESS FOR DISCUSSION

7.1. Draft Heritage Strategy

The Committee received a presentation from Michael Cook, Associate Principal for Lovell Chen, on the City's Draft Heritage Strategy. This Draft Heritage Strategy has been prepared under consultancy with the purpose for the Committee Members to review and provided feedback on this document ahead of its finalisation.

Additional documents tabled: Committee Member Sherrie-Lee Evans submitted two discussion drafts for consideration alongside the Lovell Chen working draft:

- *Draft Framework Hobart Heritage Strategy 2026*
- *Hobart Heritage Strategy 2026 – 2036 – Draft*
- Sherrie-Lee shared that the main point of difference with the document she created, related to the Action Plan. She is keen to see qualitative and quantitative measures of success / timelines / who to partner and who leads actions. Sherrie-Lee noted that similar case studies were used.

Members provided feedback as follows:

- The draft would benefit from clear goals and KPIs to support evaluation and track progress.
- Embodied energy was not fully addressed, including the economic argument for reuse and refurbishment.
- The draft includes too much internal operational detail, which could sit in a separate supporting document so the strategy can focus on aims, objectives and public-facing content.
- The overarching thematic history approach was viewed positively.
- Some sections (e.g. page 29) could be reframed to improve clarity and tone, and to present issues in a more positive, forward-looking way.
- It was considered important to fairly outline issues and challenges so the strategy can meaningfully resolve them.
- Another workshop session was suggested to further refine the strategy, including internal discussion.
- External professional input prior to finalisation was encouraged.
- Stronger visual design and improved presentation were requested.
- A more engaging structure was recommended, beginning with goals, vision and direction before explaining how actions will be achieved.

- The strategy could include fewer goals but demonstrate greater boldness, similar to the ambition of the *City's Climate Change Strategy*.
- Highlighting innovation, alongside addressing challenges, was requested.
- It was noted that technical content ("nuts and bolts") could remain in the document but placed as footnotes rather than core text.
- An action plan, early in the document, was requested; emphasizing that this action should have a clearer explanation of why actions are needed and what they aim to achieve.
- A clearer articulation of what Hobart should look and feel like in 10 years' time was encouraged.
- Overly analytical content could be moved to footnotes or appendices to streamline the main narrative.
- The strategy should remain interesting and relevant for a general reader, not just specialists.
- Members emphasised the need to clearly express why we want to strengthen heritage, including community pride and economic opportunity.
- The document should state more explicitly what the city is trying to achieve through the strategy.
- Clear sub-headings, potentially numbered, were suggested to guide navigation.
- Roles and responsibilities were considered background content rather than part of the main narrative.
- The strategy should convey Hobart's point of difference in relation to other heritage cities.
- Comparison with other Council strategies was suggested to ensure alignment with best practice while avoiding duplication.
- Members suggested that discussions with City Managers would help refine and confirm strategic goals.
- A plain-English review was requested to improve readability.
- Members highlighted that Hobart is a gateway city for Antarctica, and this should be given more strategic emphasis.
- Natural heritage was identified as a strong and defining theme for Hobart and should be more prominent.
- An engaging strategy was viewed as essential to meeting best-practice expectations across the sector.
- Reference was made to recent City of London initiatives that emphasise embodied-energy considerations and provide a clear economic case for reuse and repurposing approach.
- A briefing for all Committee Members and Directors was supported to assist Lovell Chen with refining the strategy.
- Broad engagement with additional expert groups like, architects, landscape architects, building designers, AIA, AILA, PIA, heritage practitioners, cultural heritage experts, and residential associations; was recommended before broader public engagement.
- A parallel document capturing detailed cultural heritage and planning feedback was suggested for material not suited to the main strategy.
- Integrating heritage into planning, rather than treating it as a separate discipline, was strongly supported.

Attachment B: *City of Hobart Heritage Strategy (Working Draft, Preliminary for discussion)*

Item 8 was then taken.

8. OTHER BUSINESS / NEXT MEETING

The Committee raised the following matters for discussion:

- Members requested a report regarding Dorney House and Pierces Reserve. The Committee acknowledged that the Strategic Property Management Committee is currently overseeing and progressing work on reports relating to both sites.
- Members also noted that the Beaumaris Zoo site is being examined; however, there are current biodiversity-related challenges associated with the area.

Item 6.1 was then taken.

9. NEXT MEETING

The next meeting dates are listed below:

- Tuesday, 28 April 2026
- Tuesday, 16 June 2026 and
- Tuesday, 8 September 2026.

There being no further business the meeting was closed at 7.30pm.

City Heritage Portfolio Committee – Status Report – Items outstanding
February 2026

Item No & Date	Title	Report/Action	Action Officer	Comments
Sept 2023 Action 6.2 and Nov 2023 Action 7.3.1	Further consideration of the St Johns Site redevelopment – Committee to engage with a suitable person from Department of Health who is working on the St Johns site redevelopment. Dianne to take members on a tour of St Johns site and Council arrange to have a representative from Department of Health talk to the Committee about their redevelopment plans. St Johns Park Site Visit – A site visit to St Johns Park will be arranged for early 2024.	See 7.3 above	Karen Abey / Sarah Waight	This matter is still with TASCAT. A site visit can be arranged once this appeal has been finalised. There is currently a live planning appeal (DA). Undertake site visit one planning appeal is over.
May 2024 ACTION 7.2.1	Heritage Strategy – In the context of the review of the Heritage Portfolio Committee's work plan, an update will be included as a proposal for endorsement by the Council, that a heritage strategy is created, which is likely to include an interpretation strategy. If this is endorsed by the Council, it can be created by Council officers and the Committee, possibly through a workshop (minimising any external expenses). The Committee notes that a heritage strategy would need to be endorsed by the Council.			Draft provided to the Committee for feedback
July 2024 ACTION: 6.1.1	Presentation on Antarctic Heritage – Sherrie-lee to give a presentation to City Heritage on the work that she is doing in relation to Polar Heritage.		Sherrie-lee Evans	This will be considered as part of a future meeting agenda.

431	FGC 10/12/2019 & Council 16/10/2019 FGC 16/06/2020 & Council 06/07/2020	Solar Panels	It is recommended that: 1. As a large energy user, the Council continue to create energy, cost and greenhouse gas reductions by pursuing new technologies and opportunities. Recent changes in the energy sector create tremendous scope for the Council to undertake exciting projects in: (i) Smart grids; (ii) Peer-to-peer trading; (iii) Solar and battery micro grid projects; (iv) Other renewable and storage projects; (v) Electric vehicles; (vi) Street lighting; and (vii) Smart-city monitoring. These projects offer the Council significant scope to achieve far shorter financial payback (in the range of 3 to 5 years), as well as impressive environmental benefits. 2. Solar panels continue to play a role in the City's energy strategy. They should be used more strategically, together with other technologies, to improve their payback periods. For example, a solar/battery micro-grid would allow the Council to avoid not only energy costs but network and demand charges (which can account for more than half of the energy bill) when used for a high power site such as an electric vehicle charging station. We had indirect contact with Jiri and Kochi through the Tasmanian Honorary Consuls, and direct contact from the Mayor of Jiri when he wrote a letter to the Lord Mayor expressing some interest. We did not receive any contact from the City of Incheon. • In 2023 we tried again through contacting the City of Incheon via the Australian Embassy where we sought a meeting while we had city representatives in South Korea participating in the Premier-led Trade & Investment Mission. Incheon advised they felt Hobart was an unsuitable match because of the disparity in size and population. • Separate to these cities, a philanthropic focused waste education program was being considered for the City of Balibo in Timor Leste. • In July 2020, in response to the increasing uncertainty around the covid pandemic, Council resolved to pause international relations activities, and although online

				<p>activities resumed about six months later, all decisions around new partnerships, including the Timor Leste initiative, continued to be deferred until February 2022.</p> <ul style="list-style-type: none"> • By 2022 it was clear the international landscape had changed dramatically because of covid. At the same time, the City of Hobart’s economic development agenda had become more defined. These considerations shaped the development of a new International Relations Policy, which was adopted by Council in August 2023. At the same time, Council asked for a discuss paper to inform thinking around future relationships. • The newly adopted policy influenced a shift away from considering relationships with Jiri, Kochi, Incheon and Balibo, with a focus on shorter term, higher value partnerships, aligning our key strengths and competitive advantages for example cultivating stronger partnerships with other Antarctic Gateway Cities. • In January 2025 a report was provided to ELT on the progress of international relations activities since the new policy was adopted, as well as seeking endorsement for activities for the year ahead.

468	Council 16/05/2022	Exploring City Bus Options	<p>That the Hobart City Council notes that,</p> <ol style="list-style-type: none"> Hobart has the lowest use of public transport per capita of all capital cities and improving the share of journeys taken by public transport is one of the key goals of the Hobart City Deal and Hobart's Transport Strategy. Hobart's heritage street grid creates a physical limit to the number of vehicles that can be easily accommodated within the central precinct area, and congestion creates productivity challenges for the city. City of Hobart residents have a shorter journey into the CBD than Greater Hobart residents but face high fares on a per/km basis.
