Thoughts of other ambassadors

I think the Ambassador program was great. We have received positive feedback so far, and it was a great opportunity for me to be part of this team. I learned part of what it takes to host events. Overall, I think it went well and grateful to be part of it.

I think the program was great. It provided us with the opportunity to make new friends and expand our network, but at the same time working as a team. The program also allowed us to be creative to create our own events.

- Jessika Juwita -

For me, it is a great opportunity to grow, to learn how to respect people, to gain skills and knowledge that have not been taught at school. It was great to have all of you guys to be together in this program this year. Thanks all for all your help, all things that we have done so far.
